

Kartikey Biotech

Kartikey Biotech was founded in 2010 and is engaged in **Semi-manufacturing, supplying, exporting, trading** and service providing of **Metals and Minerals Products**. We have a long and comprehensive product range, which comprises Metals and Minerals. The offered products are remarkable in quality and have earned us loads of profits. We deal in products **Copper, Nickel, Zinc, Lead, Tin, Cobalt, Metal Powder, Lithium Iron Black Mass...Etc.**

We have a **state-of-the-art Semi-manufacturing** facility armed with innovative technology machines for maintaining the industry standards. We source our raw materials from **reliable vendors of the industry for ensuring the supplying of flawless goods to the customers**. We have a sophisticated quality control facility for assaying the quality of the **Semi-manufactured products**. Our warehouse is spacious and is capable of handling bulk orders efficiently. We are renowned for meeting with the deliveries within the stipulated time period owing to our major transportation network. **Our professionals are the biggest asset for the company**. They are dexterous and committed towards the welfare of the organization. Our professionals have earned us a reputed clientele by supplying customized products.

Mr. Sundar Zinabhai Desai, our mentor, is the guiding light of our organization. He has sharp business acumen and a wide knowledge base. His industry experience has taken the firm to epitome of success. We are **exporting our product in Japan, China, Germany, Thailand, and Philippines**.
